

## Printing and Consumables

In the competitive marketplace of printed stationery and supplies, Platinum have combined the principles of quality, cost-effectiveness and personal service to offer a wide range of off-the-shelf and bespoke products. By acting as a broker between our customers and suppliers we can secure the best available prices and if you commit to a minimum annual spend we can bring those prices down even further.

Our printed stationery division supplies a standard range of products such as pre-printed letterheads, invoices, jobcards and business cards all to a quality that will meet any corporate standards set by manufacturers, governing bodies etc. We also offer a bespoke service for items such as golf balls, umbrellas, clothing etc.

We can provide samples where necessary and all artwork is sent to you for approval before final print runs take place.

In supplying stationery to our customers, the manufacturers listed below are examples of where we have had to meet strict corporate standards.

We supply a complete range of consumables such as **printer ribbons, toner cartridges, drum units, fusers, laser printer maintenance kits, scanners, printheads** and **ink cartridges** for makes and models of IT equipment. In the case of fusers, scanners and maintenance kits, if the equipment is on a service contract with Platinum and you purchase the appropriate item from us then we will install it without any additional call out fee or labour charge.
